

New Source Review newspaper advertisements for construction permit applications, June 29, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 27, June 28, or June 29, 2006. Public notices are generally published every two weeks. The previous publication of public notices was June 13 – 15, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Nestaway, LLC with a mailing address of 1373 Rochelle Road, McKenzie, TN 38201. They seek to obtain an air contaminant permit (Division identification number: 09-0083-01/59758) for modification of an Automatic Dishwasher Rack Manufacturing Process located at 1373 Rochelle Road, McKenzie, TN 38201. This existing operation consists of a fluidized-bed coating operation, three natural gas-fired curing ovens, and associated equipment used to vinyl coat dishwasher racks. The requested modification is to discontinue operation of an incinerator for elimination of volatile organic compound emissions. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the “Carroll County News-Leader”--published once on or before Thursday, June 29, 2006.

The applicant is Tennessee Asphalt Company with a mailing address of P.O. Box 1111, Knoxville, TN 37901-1111. They seek to obtain an air contaminant permit (Division identification number: 18-0091-02/60023) for installation of a Diesel-powered Electrical Generator on Highway 70 East, Crab Orchard, TN 37723. The existing asphalt plant consists of a batch mixer, asphalt cement storage, crushed limestone stockpiles and associated equipment used to produce hot mix asphalt (HMA). The proposed generator would provide power to the asphalt plant operation. There would be physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County “Crossville Chronicle”--published once on or before Thursday, June 29, 2006.

The applicant is Seymour Manufacturing Company, Inc. with a mailing address of 219 Handle Street, Sequatchie, TN 37374. They seek to obtain air contaminant permits for modification of existing air contaminant sources located at the same address, as follows:

(1) Woodworking Operation (Division identification number: 58-0009-02/59872). The requested modification is to increase the allowable hours of operation. Cyclones are used to control particulate (TSP) emissions. There would be no physical construction. Regulated air contaminants emitted by this source would increase as a result of this modification.

(2) Woodworking Operation (Division identification number: 58-0009-03/60035). The requested modification is to increase the allowable hours of operation. A cyclone is used to control particulate (TSP) emissions. There would be no physical construction. Regulated air contaminants emitted by this source would increase as a result of this modification. Mr. W. Medley is the assigned Division person.

For the Marion County "Jasper Journal"--published once on or before Thursday, June 29, 2006.

The applicant is TDR Enterprises with a mailing address of 3207 Cookeville Highway, Livingston, TN 38570. They seek to obtain an air contaminant permit (Division identification number: 67-0060-01/60020) to construct an Animal Crematory at 3207 Cookeville Highway, Livingston, TN 38570. This proposed operation would consist of a B & L Cremation Systems incinerator (model BLP-500) with a rated heat input capacity of 1.5 MMBtu/hr. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Overton County "Livingston Enterprise"--published once on or before Thursday, June 29, 2006.

FIRST APPLICANT

The first applicant is City of Monterey with a mailing address of 302 E. Commercial Avenue, Monterey, TN 38574. They seek to obtain an air contaminant permit (Division identification number: 71-0245-01/59361) for construction of an Air Curtain Destructor at 2760 Old Walton Road, Monterey, TN 38574. This proposed operation would consist of a trench type air curtain destructor (incinerator) used to incinerate yard waste and clean wood/lumber. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

SECOND APPLICANT

The second applicant is Fixtur-World, Inc. with a mailing address of 1555 Interstate Drive, Cookeville, TN 38501. They seek to obtain air contaminant permits for construction of air contaminant sources at 455 Ward Mill Road, Baxter, TN 38544, as follows:

(1) Woodworking Operation (Division identification number: 71-0150-01/60042). This proposed operation would consist of various saws, routers and sanders with a fabric dust collector. The baghouse (fabric dust collector) would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Surface Coating Operation (Division identification number: 71-0150-02/60043). This proposed operation would consist of a spray booth for coating miscellaneous wooden furniture parts. Exhaust filters would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before Thursday, June 29, 2006.

The applicant is Field Container Company, L.P. with a mailing address of 1500 Nicholas Blvd., Elk Grove Village, IL 60007. They seek to obtain air contaminant permits for construction of air contaminant sources to be located at 1800 Midway Lane, Building C, Smyrna, TN 37167, as follows:

(1) Lithographic Printing Operation (Division identification number: 75-0576-01/60060). This proposed operation would consist of a web-fed, lithographic printing press that would use ultraviolet (UV) light cured inks and water-based coatings. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Gluing Operation (Division identification number: 75-0576-02/60061). This proposed operation would consist of a gluing machine used to apply water-based adhesives. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, June 29, 2006.

The applicant is Sevier County Humane Society with a mailing address of P.O. Box 976, Sevierville, TN 37862. They seek to obtain an air contaminant permit (Division identification number: 78-0084-01/60040) for construction of an Animal Crematory at 959 Gnatty Branch Road, Sevierville, TN 37862. This proposed operation would consist of a liquid propane-fired incinerator and associated equipment used to cremate animal remains. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, June 29, 2006.

The applicant is Safety-Kleen Systems, Inc. with a mailing address of 1130 Old Highway 109 North, Gallatin, TN 37066. They seek to obtain an air contaminant permit (Division identification number: 83-0321-01/58554) for modification of a Used Oil Dehydration Process located at the same address. The requested modification is to increase their used oil throughput. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Sumner County "News-Examiner"--published once on or before Thursday, June 29, 2006.

The applicant is Hampton Paper & Transfer Printing, Inc. with a mailing address of 2230 Eddie Williams Road, Johnson City, TN 37601. They seek to obtain an air contaminant permit (Division identification number: 90-0211-02/59013) for modification of a Printing Operation located at the same address. This existing source consists of three (3) printing presses. Exhaust filters are used for pollution control. The proposed modification is to add a fourth printing press. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. S. Shajikumar is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, June 29, 2006.

The applicant is Hughes Hardwood International, Inc. with a mailing address of 500 Highway 13 South, Collingwood, TN 38450. They seek to obtain an air contaminant permit (Division identification number: 91-0061-01/60033) for a Sawmill located at 624 Indian Creek Road, Collingwood, TN 38450. This existing operation consists of various machines and equipment used for sawmill operations. This process was previously permitted for Highland Rim Hardwood (a subsidiary of Forest Management, Inc.). Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Doug Warden is the assigned Division person.

For the "Wayne County News"--published once on or before Thursday, June 29, 2006.

The applicant is Jones Brothers, LLC with a mailing address of P.O. Box 727, Mt. Juliet, TN 37121. They seek to obtain an air contaminant permit (Division identification number: 95-0287-01/60065) for the installation of a Rock Crushing and Sizing Operation at 1710 Curd Road, Mt. Juliet, TN 37122. This proposed operation would consist of a crusher, screen, conveyors, crushed aggregate stockpiles, and associated equipment used to produce crushed limestone aggregate. Wet suppression would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Wilson County "Lebanon Democrat"-- published once on or before Thursday, June 29, 2006.
